

Objective

Recognized outstanding student seeking a Web Developer Internship in an organization where my knowledge and my passion for cutting-edge web-based applications design and development would be an asset.

Education

Saint Leo University
BS Computer Science

Gainesville, FL
May 2017

Santa Fe College
AS Network Server Administration
AA Computer Engineering

Gainesville, FL
May 2016
December 2014

School Projects:

- Created a web page using HTML5 and CSS3 tools.
- Created a Pascal application to determinate the economic and human losses after an earthquake.
- Created a C application to simulate a company database to add, eliminate, or edit employees' profile.
- Created a Java application to buy snacks and movies tickets.

Leadership Experience:

- President and founder of the only Women in IT group of Santa Fe College.
- Volunteered at a middle school for children with low-income families teaching them different classes and creating workshop for them.

Highlight:

- Attended the 2015 National Center of Women and Information Technology (NCWIT) convention as a Santa Fe College representative selected by the college due to my outstanding performance.
